

The Parent Volunteer Association (PVA) is open to all parents of CKS students. The purpose of this organization is to facilitate close coordination and cooperation between the parents, teachers, and administration of Christ the King School, as well as to foster the pursuit of excellence in academic, cultural, and community endeavors among the students. The PVA is responsible for many social, educational, and fundraising activities throughout the year, and all parents are encouraged to get involved. A board of parent volunteers governs the organization, and quarterly meetings are open to all parents.
